

Medium Industrial Service
Schedule MI

Availability

Available only to establishments classified as “Manufacturing Industries” by the Standard Industrial Classification Manual, 1957 or later version, published by the Bureau of Budget, United States Government, and where more than 50% of the electric consumption of such establishment is used for its manufacturing processes whose monthly demand exceeds 50 kW in any three months of the preceding twelve months but is less than 250 kW.

Service under this Schedule shall be used solely by the contracting Customer in a single enterprise, located entirely on a single site.

This Schedule is not available for auxiliary or breakdown service. Power delivered under this Schedule shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for, under any other Schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

Type of Service

The City will furnish 60-Hertz service through one meter, at one delivery point, at the available voltage.

The type of service supplied will depend upon the voltage available. Prospective customers should determine the available voltage by contacting the City before purchasing equipment.

Motors less than 5 H.P. may be single-phase. All motors of more than 5 H.P. must be equipped with starting compensators and all motors of more than 25 H.P. must be the slip ring type except that the City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

For Billing Months Energy	Rates
Basic Facilities Charge	\$125.00
Minimum Charge:	Basic Facilities Charge
Demand Charge:	
All kW	\$10.69 per kW
Energy Charge:	
First 100 kWh per kW Billing Demand Per Month	
All kWh	\$.0540 per kWh
Next 200 kWh per kW billing Demand Per Month	
All kWh	\$.0525 per kWh
All Over 300 kWh per kW Billing Demand Per Month	
All kWh	\$.0504 per kWh

Medium Industrial Service
Schedule MI

Determination of Billing Demand

At its option, the City may install a demand meter to measure demand for any customer served under this schedule.

The demand for billing purposes each month shall be the maximum integrated 30-minute demand measured during the month.

Minimum Bill

The minimum bill shall be the basic facilities charge.

Power Factor Correction

When the average monthly power factor of the Customer's power requirements is less than 90 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 90 percent and dividing the resultant value by the average power factor in percent for that month.

Contract Period

Customers must remain on this Tariff schedule for a period of no less than 12 months before switching tariffs or service unless it is determined by the City that the customer no longer qualifies for this service.

The definitions of "Month," "Determination of Energy," and "Sales Tax" are contained within the General Terms and Conditions and are pertinent to this rate schedule. The General Terms and Conditions Section and the Lexington Utilities Customer Service Policy Manual are an integral part of this tariff.

Large Industrial Service
Schedule LI

Availability

Available only to establishments classified as “Manufacturing Industries” by the Standard Industrial Classification Manual, 1957 or later version, published by the Bureau of Budget, United States Government, and where more than 50% of the electric consumption of such establishment is used for its manufacturing processes whose monthly demand exceeds 250 kW in any three months of the preceding twelve months but is less than 1,000 kW.

Service under this Schedule shall be used solely by the contracting Customer in a single enterprise, located entirely on a single site.

This Schedule is not available for auxiliary or breakdown service. Power delivered under this Schedule shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for, under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing with the contract with the Customer.
